

Photonis is a leading multinational high-technology group, with experience in manufacture, sales and innovation specializing in photo sensor technology since 1937. We operate internationally in several key areas: Defence, Security & Surveillance, Particle Physics, Scientific Applications, Space Exploration, Industrial Applications, Analytical Instruments, Nuclear Instrumentation and Communication.

Photonis is a global manufacturer of electro-optic components used in the detection of ions, electrons and photons. We innovate and engineer quality components for integration into a variety of applications such as night vision optics, digital cameras, mass spectrometry, physics research, space exploration and many others. We design and manufacture in four state of the art facilities across the globe and work with our customers to continually bring improvements and innovation to our products. We are the most widely deployed night vision tube globally, lead the mass spectrometer detector market, and have products installed in most space telescopes and high energy physics experiments in laboratories around the world.

To strengthen our Business Unit Scientific Detectors Sales, PHOTONIS Netherlands B.V. is offering an:

INTERNSHIP EUROPEAN SALES AND DISTRIBUTION STRATEGY(M/F)

The Business Unit Scientific Detectors wants to improve their global processes which keeps PHOTONIS in a market leadership position.

The Job

As an intern you will research the market for suitable distribution partners based on current and future customer requirements, with a focus on the most important players, their strategy and conditions.

Furthermore you will make a plan to introduce our products in Europe via a network of distributors.

We offer

A full time internship in a booming high-tech company for a period of 6 months

Requirements

You are in your 2nd, 3rd or 4th year of your bachelor Commercial economics (or comparable). You have a hands-on mentality, can work independently and are a team player.

You are creative in your research; problem solving is your second nature just as thinking outside the box. Organising and planning comes natural with you.

CV and cover letter in English to be sent to HRM, PHOTONIS: hrm@nl.photonis.com
